PRODUCT LIFE CYCLE STATEMENT

Softstarters
Type PSE210…370-600-70 (Generation 1)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Current life cycle status
Softstarters type PSE210…370-600-70 (generation 1) are in the Classic life cycle phase since 1.1.2019, according to the ABB life cycle model outlined above.

Life cycle plan
It is planned to keep the Softstarters type PSE210…370-600-70 (generation 1) in Classic phase until the end of 2019, after which they will be transferred to the Limited phase.

Product availability
Sales will be ramped down according to the following schedule:

<table>
<thead>
<tr>
<th>Product</th>
<th>Last orders</th>
<th>Last delivery</th>
</tr>
</thead>
</table>

Recommended actions
It is recommended to replace the PSE210…370-600-70 with the latest generation product, e.g. PSE210…370-600-70-1 (generation 2), using an installation adapter kit.
Service availability
See details at new.abb.com/drives/Services and contact your local ABB representative for availability.
