Workpiece positioners
The new generation

The ABB positioners are optimized to be used for manipulating of workpieces in arc welding, thermal cutting and other applications. All axes can be fully coordinated with the robot when programming as well as during operation.

There are seven different models to choose from.

- IRBP A 250 – 750 kg
- IRBP B 250 – 750 kg
- IRBP C 500 – 1000 kg
- IRBP D 300 – 600 kg
- IRBP K 300 – 1000 kg
- IRBP R 300 – 1000 kg
- IRBP L 300 – 5000 kg
