

ABB IN CANADA

ABB's commitment in Canada

ABB in Canada is a leading technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. By connecting software to its electrification, robotics, automation and motion portfolio, ABB pushes the boundaries of technology to drive performance to new levels. With a history of excellence stretching back more than 100 years, ABB's success is driven by 3,200 talented employees in our 33 locations from coast to coast.

> 3,200
employees in Canada

33 locations
coast-to-coast
18 sales & service facilities
and 15 manufacturing sites

Close to \$400K
given to Canadian
communities in 2023

Four focused leading businesses

Electrification
Electrifying the world in a safe, smart
and sustainable way.

Robotics & Discrete Automation
Writing the future of flexible manufacturing
and smart machines.

Motion
Writing the future of smart motion.

Process Automation
Writing the future of safe, smart,
and sustainable operations.

At a glance

ABB in Canada

Across Canada, our experts are continually innovating a comprehensive range of products, systems and services that increase energy efficiency, reliability and productivity to help our industrial, utility and infrastructure customers to embrace the digital future.

- ABB's Canadian headquarters, Montreal Campus, was built to LEED (Leadership in Energy and Environmental Design) Silver standards. It houses the Research Development and Assembly (RDA) Center, a 10,000 m² of production and testing space, ISO 9001, 14001 and 45001 certified.

- Located in the Montreal Campus, the Customer Innovation Centre (CIC) is an immersive space that showcases our expansive Canadian portfolio of products and solutions, and how our smart technologies are helping in decarbonizing cities and improving energy efficiency for a cleaner future.
- The CIC showcases ABB's tailored solutions and technologies designed to help customers achieve more productive, innovative and sustainable business practices.
- Campus Montreal is home to ABB's North American Centre of Excellence in E-Mobility. This center unites experts and industry leaders in public transport to develop new technologies for sustainable transport for cars, buses and rail.
- ABB actively promotes a low-carbon society and works with customers and suppliers to implement sustainable practices throughout its value chain and the lifecycle of its products and solutions.
- ABB Canada is a proud partner in Canadian communities by ensuring the safety and well-being of its employees and the communities in which it operates, sharing knowledge, supporting charities and improving the lives of Canadians in its workplaces, schools and neighbourhood.
- Along with its employees, the Canadian organization rallies around the annual campaign to help those in need through ABB Canada's three charitable partners: [Canadian Red Cross](#), [Health Partners](#) and [United Way](#).
- ABB has been named by **Forbes** as one of Canada's Best Employers for nine consecutive years (2015-2024) and on the list of **Canada's Top 100 Employers** for three consecutive years (2021-2024).
