Course Type and Description
The ACS880 operation, startup and basic maintenance learning event comprises of two parts: e-learning courses and classroom course.

This is the second part of the learning event: This is a classroom course with hands-on lab activities supported by an instructor. This course contains hands-on ACS880 exercises.

The first part of the learning event includes the theory based e-learning courses mentioned below. Please note that the e-learning course material is not covered during the classroom course. You are required to complete the e-learning part before the classroom part, which is essential in order to be able to succeed in the hands-on lab activities during classroom days. The status of e-learning course completion is monitored.

Course Goal
The goal of this course is to teach students to install, startup, adjust and operate ACS880 drives.

Course Objective
Upon completion of this course, students will be able to:

- Commission and tune ACS880 drives
- Operate ACS880 drives
- Do basic maintenance for ACS880-01 drives

Main Topics
- ACS880 Hardware and software basics
- ACS880 primary control program
- Control panel functions
- ACS880 startup
- Parametrisation of the converter
- Installation principles
- Optional equipment connections
  DriveComposer commissioning and maintenance tool operations

Course Duration
The course duration is 1 day.

Prerequisites
- Basic knowledge of electronics
- Experience in using a Windows PC
- E-learning courses G020e, G371e, G374e, G375e, G380e and G3801e.

Student Profile
This course is intended for electricians, technicians, and engineers who install, operate and service ACS880 drives.
Day 1

08:30   Course Information
08:45   Exercises
10:10   Coffee Break
10:25   Exercises
11:50   Lunch
12:35   Exercises
14:00   Coffee Break
14:15   Exercises
15:40   Course Evaluation
16:00   End of the Day

Exercise Executing Order

- Group 1
- Group 2
- Group 3
- Group 4
