

BIM WORLD MUNICH 2019

BIM@ABB

From your needs to ABB solutions

Emanuele Tosatti, ABB Electrification

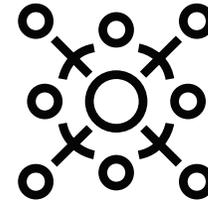

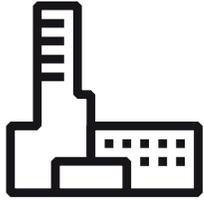

Why are we here?

You're all wondering...

Why are we here?

A hundred years love story

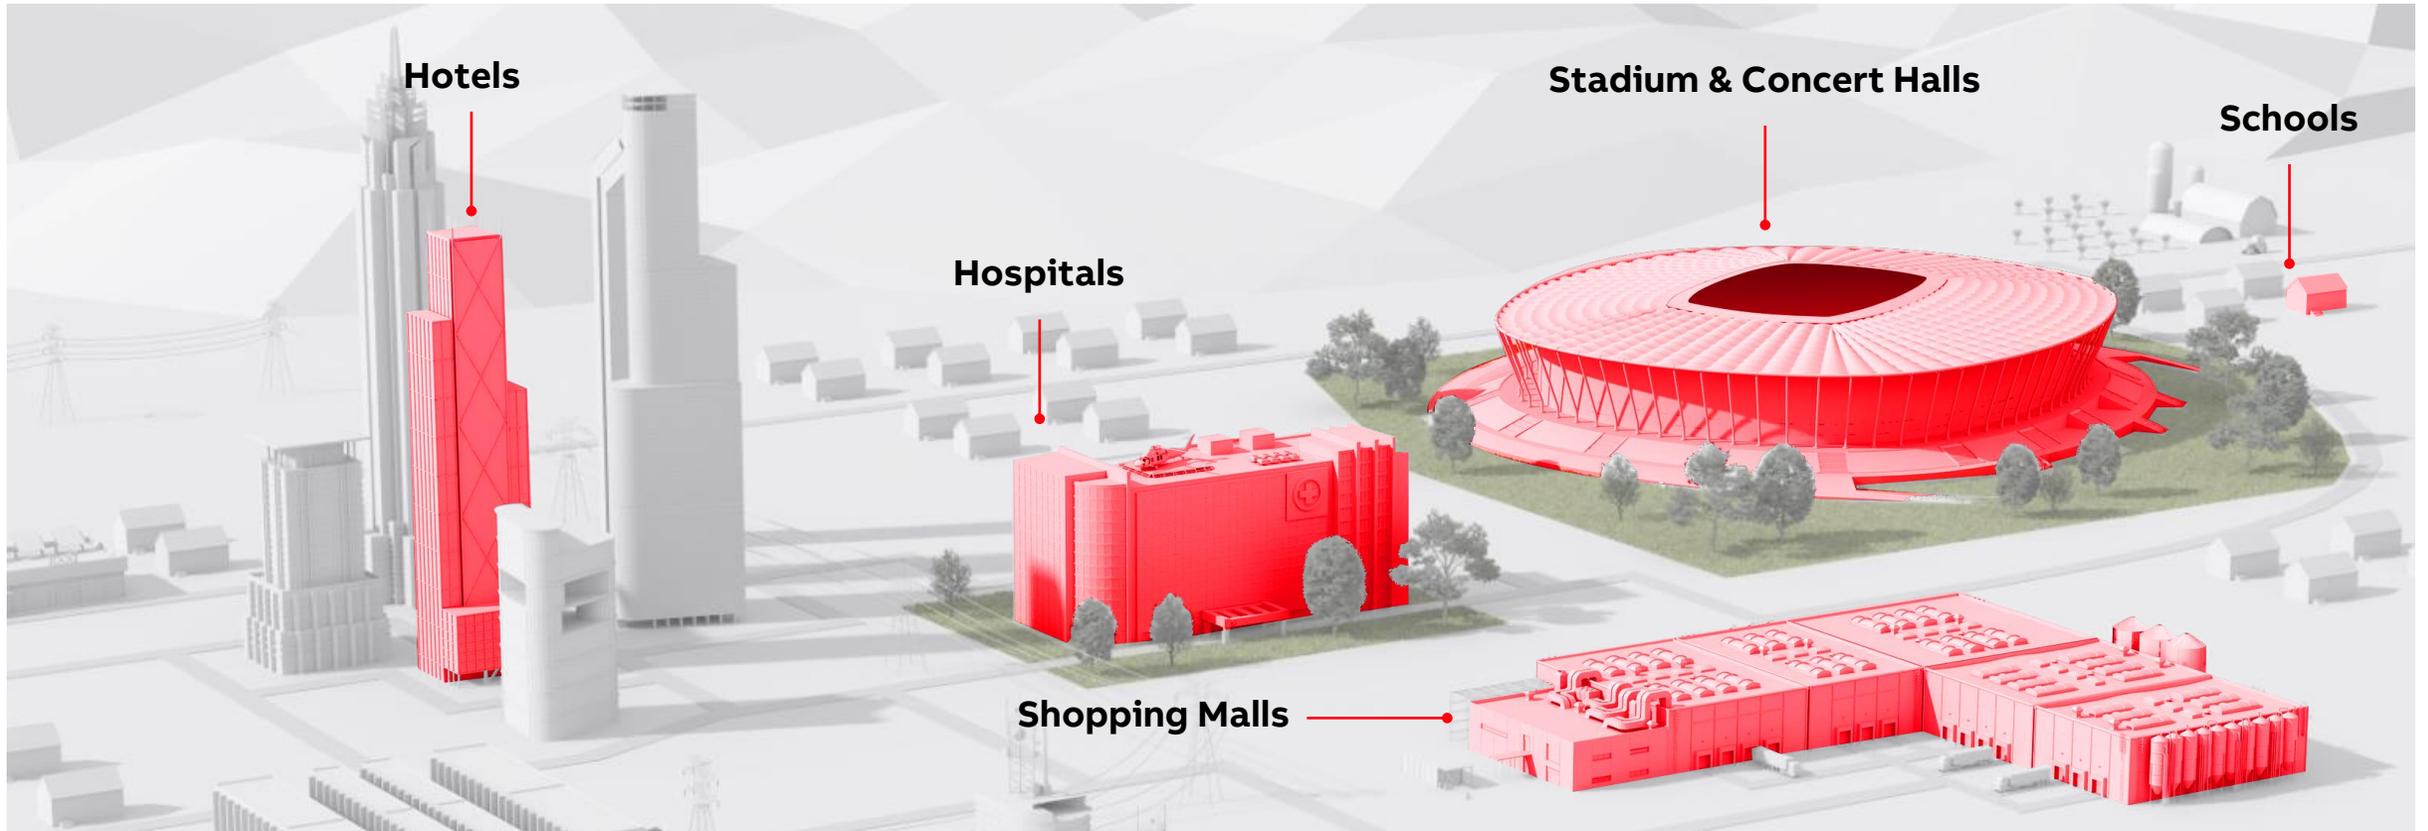

1883

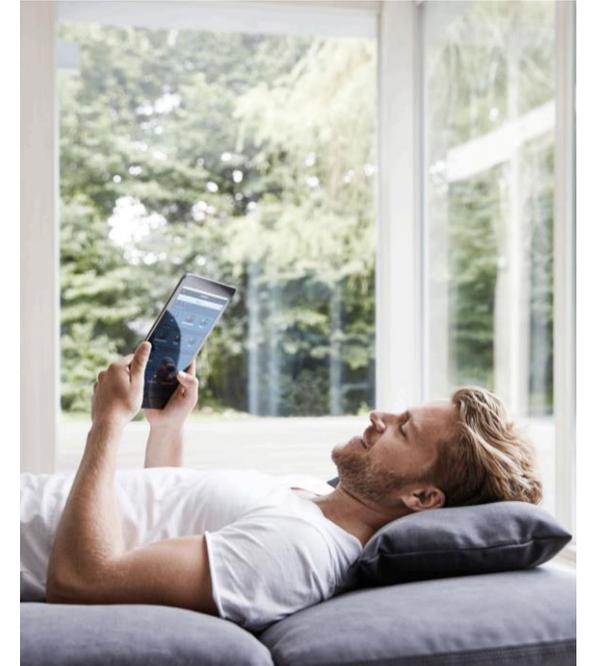

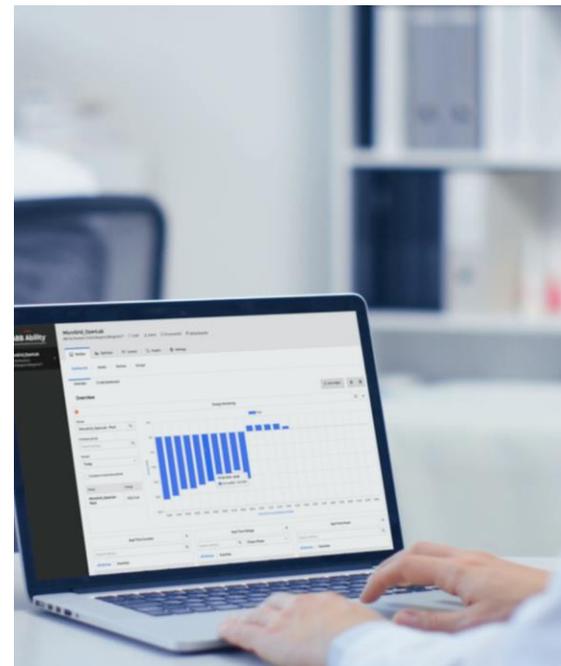

Electrification products
and building automation
solutions

From **power main**
distribution to your
home's socket outlet

Making our buildings better...

...with smarter buildings solutions!

Smarter buildings

Solutions, systems and possibilities to make buildings smarter

Security

Intrusion Alarm

Panic Scene

Access Control

Video Surveillance

Glass break Detection

Window Monitoring

Movement Detection

Presence Detection

Smarter buildings

Solutions, systems and possibilities to make buildings smarter

Safety

Line Protection

People Protection

Surge Protection

Arc Fault Protection

Energy Distribution

Smoke Detection

Flood Detection

Overvoltage protection

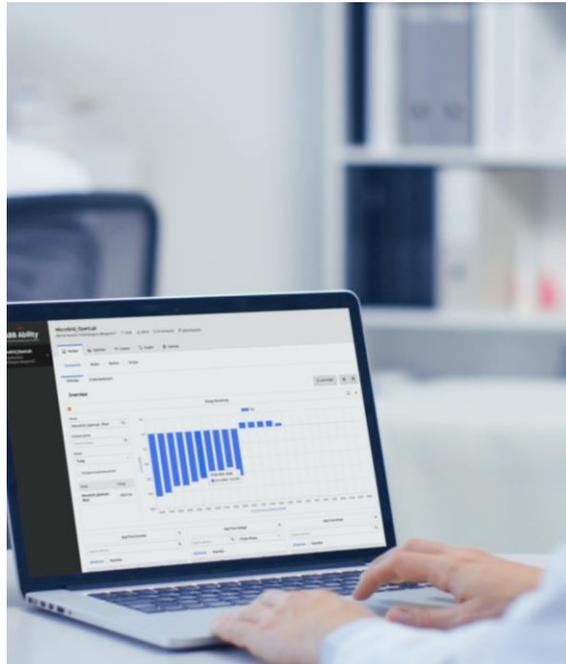

Emergency lighting

Smarter buildings

Solutions, systems and possibilities to make buildings smarter

Energy Efficiency

Energy Management

Blind Control

Everything-off function

Heating Ventilation
& Air-conditioning

Metering, Energy and Power
monitoring

Energy Distribution

Modular DIN-Rail

Enclosures

Switchgears, transformers

Connection devices

Solar & EV Charging

Drives

Smarter buildings

Solutions, systems and possibilities to make buildings smarter

Comfort

Light Control

Blind Control

Door Communication

Comfort Scenes

Heating, Ventilation
& Air-conditioning

Wireless Internet access

USB Connection

Multimedia Technology

Philips Hue

Sonos

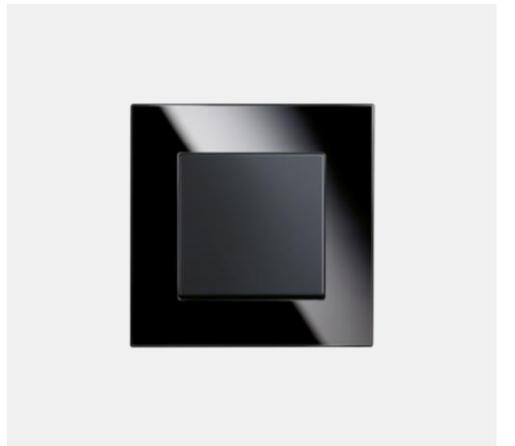

ABB solutions for smarter buildings

Design solutions to further enhance your home and building aesthetics, style and local taste

30 Design awards
in the last 4 years

The proof of **highest quality**
and acceptance of design experts

DESIGN
PLUS

interior
innovation
award

Smart buildings for today and tomorrow

Smarter buildings: future trends

Energy efficient homes and buildings

Independent energy production

Installing **Solar panels** on the roof of the house or/and on the garage

Self consumption

- Buildings become **digital** with smart devices and **software systems**
- Robot vacuum cleaner, **EV cars**, laptops

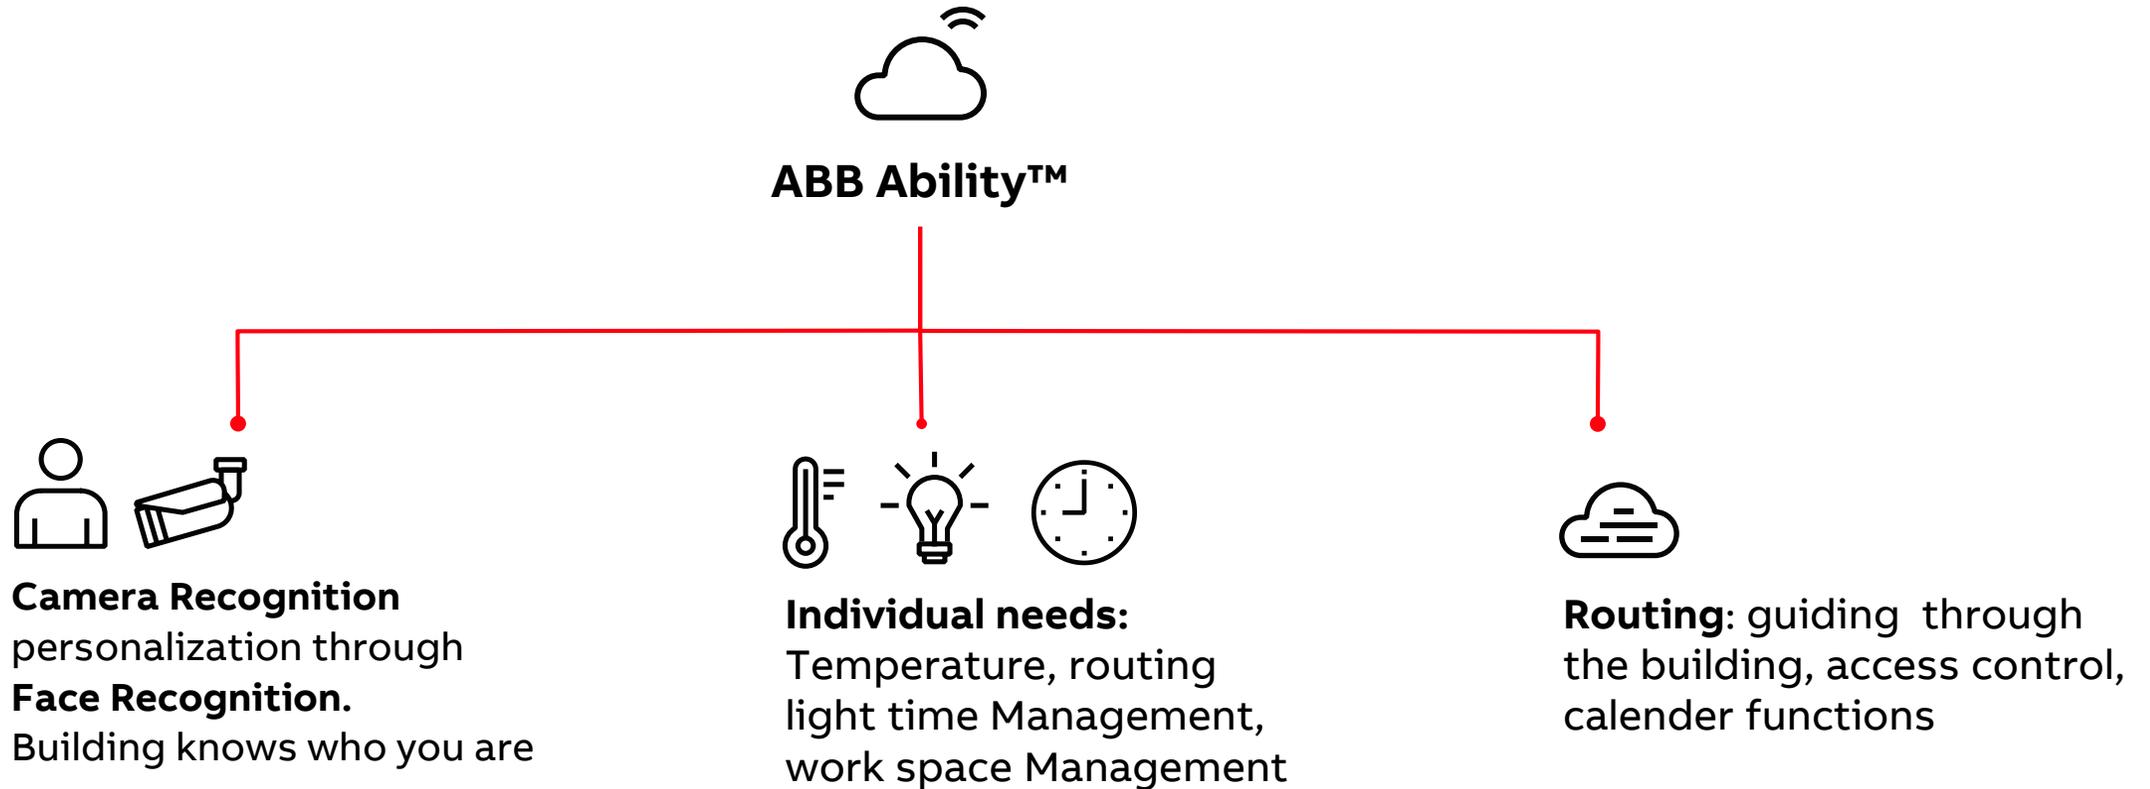

Energy Storage

- **Batteries** saving energy and feed the home as needed
- **EV cars** that are used as a battery and is connected to the energy usage of the home

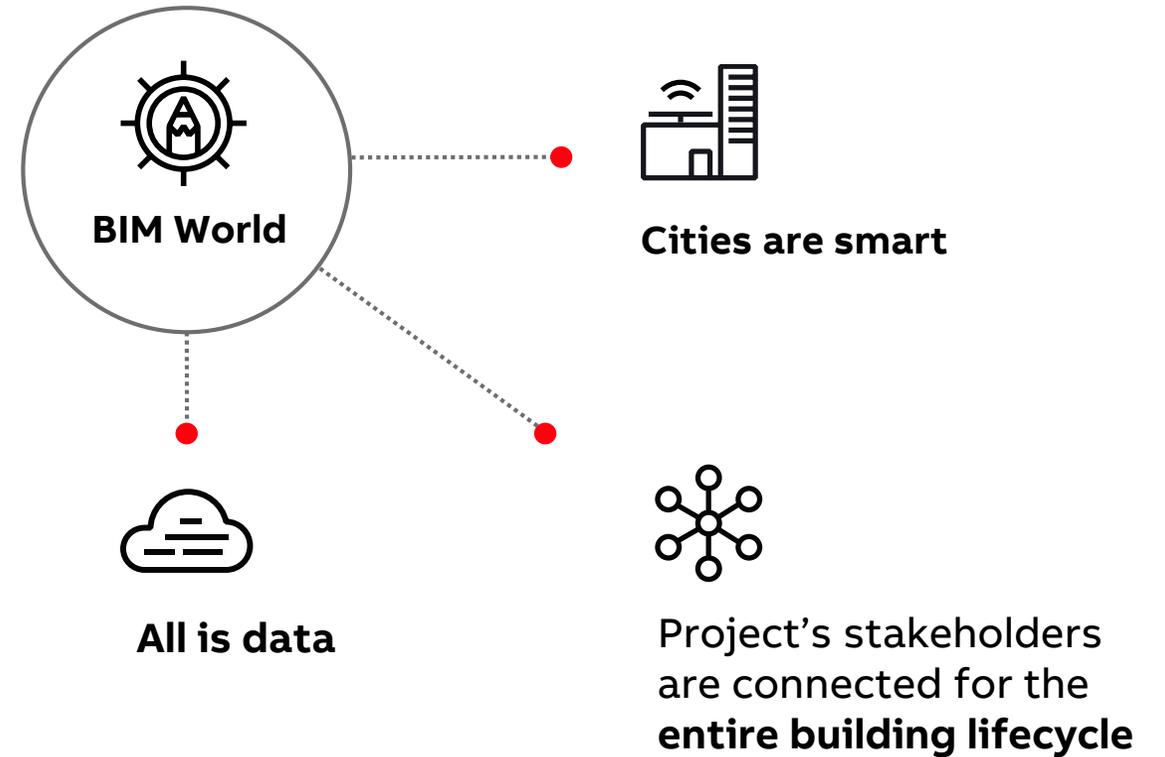

Smarter buildings: the benefits of digitalization

Future possibilities: high-security and comfort buildings

Building Information Modeling

In a BIM-ized world...

**So...what do we do
at ABB for BIM?**

ABB solutions for BIM

Our offer

ABB for **BIM world**

Listen any different requests and **offer custom solutions**

ABB BIM experts support our customers, consultants, contractors, designers and facility managers

Provide BIM families and tools updated, high quality and compliant

ABB solutions for BIM

Electrification indicators

+30%

is already in BIM

+50%

of our **solutions**, BIM
is or will be **required**

+80%

will be in BIM

>40K
