NOTES:

1. WARNING: This drawing does not illustrate completely the installation methods required for hazardous locations. Prior to any installation in a Classified Hazardous Location, verify installation methods by the Control Drawing referenced on the product’s name tag and national and local codes.

2. Depending on power from port, the RS-485/232 Converter will transmit up to 4000 ft. @ 115.2k baud.

3. RS-485 conversion is 2-wire, half-duplex only. The Converter has an internal connection to prevent data from the RS-232 port from being echoed back to the port.
