New Halogenfree Bends and Pre-bents

01 Halogen free conduit bends

02 Halogen free pre-bent curve conduit extensions

The Widest selection of conduit bends with different shapes and angles. The ABB Conduit Bends have the best pull force resistance, with Glue lining to ensure added connection reliability. Ensuring the Best connection between bend and conduit.

The conduit bends with a 90° angle are equipped with locking glue and are used to improve working efficiency and safety in conduit installations.

Pre-bent conduit extensions are used with bushing insulators AJ10.20, AJ10.25 and AJ155 in concrete casting. Conduit extensions are equipped with a wider sleeve in one end for easy connecting of a conduit to the conduit bend.
