ABB’s Process Industries division automates, electrifies, and digitalizes mining, metals, cement, pulp & paper, battery manufacturing, food & beverage, and data center industries. Solutions include sector-specific critical products and embed our extensive domain knowledge. Lifecycle services are an integral part of our offering. ABB Process Industries operates in more than 50 countries, with around ten manufacturing centers. We serve end users directly, but also reach the market through alternative channels, such as OEMs, EPCs, system integrators and distributors.
