Power Supplies
- Adjustable output voltages, wide range of input voltages and output currents
- High efficiency and true redundancy units
- Open-circuit, overload and short-circuit stable with LED indication
- Click Here for more information

Pilot Devices
- Complete range of operators and contact configurations
- Long life due to automatic self cleaning of contacts and IP66, IP67 and IP69K ratings
- Click Here (22mm) and Click Here (30mm) for more information

Signaling Towers
- Fast mounting no maintenance thanks to LED with long lifetime
- Flexibility of signal elements: permanent, blinking, rotating or flashing light, siren and buzzer elements with IP54 and IP65 ratings
- Click Here for more information
