

# Lifecycle services

## Service package

### Recorders and Controllers

Maximize process performance with reduced start-up time

**Measurement made easy**

Dedicated services to enhance performance of recorders and controllers

## Introduction

ABB's suite of products allow the recording and control of almost any process or system.

Electrical installation and process tuning can be a daunting task if not part of your day-to-day work. ABB service have developed a range of after sales services to fully support our customers no matter what their needs.

## Service offering

All ABB field service team members are trained by our factory product specialists. Work performed by ABB is protected by a one-year warranty.

Recorders and Control Service

Measurement Care

## Recorders and Controllers service package

### Installation and Commissioning

Ensure right first time electrical installation with efficient process control.

### Upgrades

Upgrade your product with additional I/O's or new software functionality.

### One year extended warranty

Peace of mind if something goes wrong.
