

## Co-act EGP-C for ABB CRB15000 GoFa

Gripping unit suitable for collaborating robots with the specific connection to the ABB CRB15000 GoFa

### Your advantages and benefits

- Gripping unit for collaborative robot
- Certified gripping unit saves effort for safety assessment of the application
- Plug & Work with ABB CRB15000 GoFa
- Control via digital I/O

### Technical data

- |                                 |                              |
|---------------------------------|------------------------------|
| • ID                            | 1468551                      |
| • Size                          | 64                           |
| • Stroke per jaw                | 10 mm                        |
| • min. / max. gripping force    | 65 / 230 N                   |
| • max. admissible finger length | 80 mm                        |
| • Weight                        | 1.38 kg                      |
| • Mechanical interface          | EN ISO-9409-1-50-4-M6        |
| • Nominal voltage               | 24 V DC                      |
| • Electrical interface          | M8 4-pole / M8 3-pole        |
| • Sensors                       | Inductive proximity switches |
