

GRID AUTOMATION SOLUTIONS THAT ENABLE

# DIGITAL SUBSTATIONS

**MISSION-CRITICAL COMMUNICATIONS**

**20+ years**

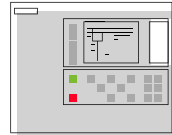

of substation communication experience

**IED PROTECTION AND CONTROL**

**300,000+**

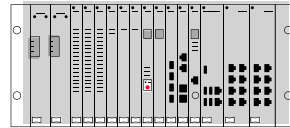

proven microprocessor protection and control relays worldwide

**REMOTE TERMINAL UNITS**

**150,000+**

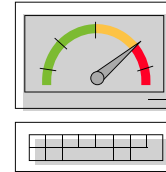

remote terminal units installed worldwide

**DIGITAL ENTERPRISE**

**US\$9M**

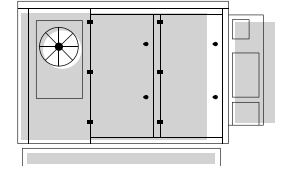

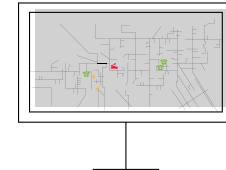

Average first-year CAPEX and OPEX savings

**NETWORK CONTROL SYSTEMS**

**1,000,000+**

Field-proven to process over 1M data points simultaneously and 10,000+ data changes per second

**BATTERY ENERGY STORAGE SYSTEMS**

**500MW**

Our global microgrids and BESS footprint covers more than 500 MW and 200 references
