

System Profile

V-6 Cylinder Head Assembly Line

Industry: • Automotive OEM

Part: • Cylinder head

Installation Date: • 1999

Description: • Assembly line for 12-valve aluminum cylinder head. Assembly system is

an over/under system of non-synchronous power roll MS-4 transport delivery system. Equipment will assemble left and right hand aluminum

cylinder heads. 3.5L engine.

Equipment: • 21 automatic stations

14 ABB robots

9 manual back-up stations

3 repair bays

Customer Benefits: • Fully automatic

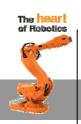

Assembly verification throughout process

Includes robotic key-up and valve install

Designed to run with two operators

ABB Inc.

System Profile

V-6 Cylinder Head Assembly Line

Technical Data: • Capacity: 300,000/ year

• Cycle time: 22 seconds

Unique Elements:

Patented robotic key-up tool

Laser key check
