NOTES:
1. WARNING: This drawing does not illustrate the installation methods required for hazardous locations. Prior to any installation in a Classified Hazardous Location, verify installation methods by the Control Drawing referenced on the product's name tag and national and local codes.
2. To access the XMV termination board, remove the enclosure rear cover.
3. Maximum accumulated length for the RS-485 bus is 4000 feet.

In this configuration, COMM1 may not be used to communicate with other devices. To attach other devices, such as other flow computers, use COMM2.

Connect the Shield GND from the RS-485 cable at the enclosure end of the cable to the Chassis GND Lug located on the bottom of the enclosure. DO NOT ground at any other place.
