Lifecycle phase change of Analog Cyclo Converter

This document announces the transition of Analog Cyclo Converter to the obsolete phase of ABB’s product life cycle.

1. LIFE CYCLE PHASE CHANGE
On January 1, 2006 Analog Cyclo Converter product will enter obsolete phase.

2. SUPPORT AVAILABILITY
When entering to the obsolete phase ABB shall no longer guarantee support for Analog Cyclo Converter. Spare parts, repair and support services are provided only as long as they are available.

3. RECOMMENDED ACTION
It is recommended that the Analog Cyclo Converter will be replaced with a new ABB AC Drive product. The local ABB organization is glad to help to choose the correct replacement for the equipment in question and explain what other options are available.

4. FURTHER INFORMATION
For more information on the available Drives services, such as replacement possibilities and the ABB life cycle policy for Drives, please see http://www.abb.com/drivesservices/ and/or contact your local ABB organization.

For further information on the life cycle model and available services, please contact ABB Switzerland Ltd, Medium Voltage Drives by E-mail: mvac.supportline@ch.abb.com.
