Overview of this specification

About this product specification

This specification lists all active user documentation for ABB Robotics products.

Revisions

Revision	Description
T	Released April 2011, R11.1.
U	Released October 2011, R11.2. Structure of the chapters modified.
V	Released April 2012, R12.1.
X	Released October 2012, R12.2.
Y	Released April 2013, R13.1. Added Turkish manuals.
Z	Released October 2013, R13.2.
AA	Released February 2014.
AB	Released April 2014, R14.1.

1 Introduction

1.1 Easy-to-use information products

Introduction to Robot User Documentation

The Robot User Documentation is aimed at all robot users, providing easy to use information and guidelines as well as in-depth descriptions and detailed reference literature. There is a robot user document for each stage of use, from installation and commissioning, through programming, operation and maintenance, to troubleshooting and decommissioning of your robot system.

ABB's group of skilled editors provide professional user documentation, ensuring efficient communication of robot expertise, from our engineers to your personnel.

Key benefits

- Easy-to-use user documentation
 - In-depth reference information
 - Detailed product information
 - Maintenance and service procedures
-

Accessing the user documentation

All robot user documentation can be ordered on a DVD. Updated versions of all user documentation can be found in ABB Library (inside.abb.com/library). ABB Library is a fast and easy way to find updated robot information and can be accessed by all ABB employees.

Printed manual

There is one manual that is delivered also as a printed version together with the robot system. The manual is *Operating manual - Emergency safety information*, which is translated into 18 languages.

1 Introduction

1.2 User documentation DVD

1.2 User documentation DVD

Introduction

The documentation DVD includes the user documentation for all standard robotics products. The robot user documentation is translated into 18 languages, including a number of Asian languages, according to the EU machine directive. Documents that are not translated are available in English.

Note

There is one DVD with user information for IRC5 with main computer DSQC 639 and RobotWare 5.15.xx, and one DVD for IRC5 with main computer DSQC1000 and RobotWare 5.6x. See [DVD documentation on page 15](#).

Updates of the documentation DVD are released at every major product change (manipulators, controllers, and RobotWare).

The documentation browser appears automatically on your PC screen when starting the DVD.

Ordering the DVD

The robot user documentation DVD is ordered using the standard Robot Specification form.

Help for searching the DVD faster

All files on the DVD can be searched in one operation in Adobe Acrobat. To search all files takes quite a long time, but you can create an index to make it faster to search the next time. How to set up an index is described in Adobe Acrobat Help (press F1 in Acrobat).

1.3 Types of manuals

Operating manuals

The *operating manuals* are directed to persons with first hand contact with the robot system, that is production operators, programmers, and service personnel.

Technical reference manuals

The *technical reference manuals* include reference information for the products. The technical reference manuals for RAPID and system parameters describe the controller software. The manuals include syntax and detailed information on instructions, functions, and data types in the RAPID language and on system parameters.

Application manuals

The *application manuals* describe RobotWare base functionality and options, directed to specific applications, such as RobotWare Arc, Spot, Dispense, Integrated Vision. The content includes:

- Purpose of the option: For what is the option intended?
- What is included in the option, for example RAPID instructions, system parameters.
- Which hardware is required, for example cables and I/O boards.
- Setup, programming, and configuration examples.

RobotWare application manuals

Application manual - Motion functions and events, 3HAC18152-1

This manual explains the basics of RobotWare base functionality and options:

- World Zones
- Fixed Position Events
- Independent Axis
- Path Recovery
- Path Offset

Application manual - Motion performance, 3HAC18153-1

This manual explains the basics of RobotWare options:

- Advanced Shape Tuning
- Absolute Accuracy
- Wrist Move

Application manual - Motion coordination and supervision, 3HAC18154-1

This manual explains the basics of RobotWare options:

- Collision Detection
- Sensor Synchronization
- Analog Synchronization

Application manual - Servo motor control, 3HAC020436-001

Continues on next page

1 Introduction

1.3 Types of manuals

Continued

This manual explains the basics of RobotWare base functionality and options:

- Servo Tool Change
- Servo Tool Control
- Electronically Linked Motors

Application manual - Robot communication and I/O control, 3HAC020435-001

This manual explains the basics of RobotWare base functionality and options:

- File and Serial Handling
- Fieldbus Command Interface
- Logical Cross Connections
- Analog Signal Interrupt
- PC Interface
- FTP and NFS Client
- Socket Messaging
- RAPID Message Queue

Application manual - Engineering tools, 3HAC020434-001

This manual explains the basics of RobotWare base functionality and options:

- Multitasking
- Advanced RAPID
- Sensor Interface
- Auto Acknowledge Input

Product manuals

There is a *product manual* for each robot and controller. The content includes:

- Safety information
- Installation and commissioning
- Maintenance (maintenance schedules and preventive maintenance routines)
- Repair (lists of spare parts and repair procedures)
- Calibration procedures
- Decommissioning procedures
- Reference information
- Part list or reference to separate spare part list
- Foldouts or exploded views
- References to circuit diagrams

Product specifications

There is a *product specification* for each product. The content varies depending type of product but usually includes:

- Description
- Variants and options

1.4 Languages and article numbers

Article numbers

The article number for a manual or the documentation DVD is the same for all languages except for the subnumber (language code).

Example:

Article number	Title
3HAC16590-2	<i>Operatörshandbok - IRC5 med FlexPendant</i>
3HAC16590-7	<i>Manuale dell'operatore - IRC5 con FlexPendant</i>
3HAC047136-001	<i>Product manual - IRC5</i>
3HAC047136-003	<i>Produkthandbuch - IRC5</i>

Language codes

The manuals are available in the following languages (with matching subnumber).

Language	Language code	Subnumber	
English	en	1	001
Swedish	sv	2	002
German	de	3	003
French	fr	4	004
Spanish	es	5	005
Portugese	pt	6	006
Italian	it	7	007
Danish	da	8	008
Dutch	nl	9	009
Chinese (simplified)	zh or zh-cn	10	010
Korean	ko	11	011
Japanese	ja	12	012
Finnish	fi	13	013
Czech	cs or cz	14	014
Polish	pl	15	015
Russian	ru	16	016
Hungarian	hu	17	017
Turkish	tr	18	018
