

SERVICE OF MV, LV TECHNOLOGIES

Training course CZ029

630 series relays in UniGear ZS1 switchgears

Goal:

The goal of the program is learning 630 series relay operation, setting and configuration in UniGear ZS1 switchgear.

Participant profile

Service engineers, operation and maintenance personnel and external consultants are the target audience for this Training.

Prerequisites and Recommendations

The course is built for beginners in the UniGear ZS1 switchgear maintenance, operation and servicing, technicians as well as maintenance engineers. Students shall have a basic knowledge of electrical switchgears and protection relays.

Learning Objectives

Upon completion students will be able to:

- operate and set 630 series relays via HMI
- operate, set and configure 630 series relays via configuration tool

Modules

The course is composed of following modules:

CZ004 - Operation and setting of 630 series relays in UniGear ZS1 switchgear
 CZ008 - Programming of 630 series relays in UniGear ZS1 switchgear

Course duration

3 days

Training module CZ004

Operation and setting of 630 series relays in UniGear ZS1 switchgear

Goal:

The course is aimed at learning 630 series relay operation and setting via HMI in UniGear ZS1 switchgear.

Participant profile

Service engineers, operation and maintenance personnel are the target audience for this training.

Prerequisites and Recommendations

The course is built for beginners in the primary air insulated switchgears operation and maintenance. Students shall have a basic knowledge of electrical switchgears and protection relays.

Learning Objectives

Upon completion students will be able to:

- understand the basics of hardware of 630 series relays
- recognize the option/variant of 630 series relays suitable for particular application
- understand the operation of 630 series relays
- operate the circuit breaker via 630 series relays
- do the setting of 630 series relays via HMI

Main Topics

The course contains following topics

- 630 series relays introduction, hardware
- HMI operation of 630 series relays
- setting the parameters of 630 series relays via HMI

Module Duration

1 day

Training module CZ008

Programming of 630 series relays in UniGear ZS1 switchgear

**Goal:**

The aim of the course is to learn 630 series relay operation, setting and configuration in UniGear ZS1 switchgear.

Participant profile

The training is targeted to service engineers, testing and maintenance personnel, external consultants and electrical engineers.

Prerequisites and Recommendations

The course is set up for personnel with basic experience in 630 series relays operation in UniGear ZS1 switchgear. Students shall know the 630 series relays human machine interface.

Learning Objectives

Upon completion students will be able to:

- understand the operation and setting of 630 series using configuration tool
- understand the configuration of 630 series relays in UniGear ZS1 application
- understand GOOSE signal configuration

Main Topics

The course contains following topics

- 630 series configuration tool introduction
- setting of 630 series relays via Configuration tool
- reading the configuration of 630 series relays
- reading the configuration of GOOSE signals
- working online and testing the configuration of 630 series relays

Module Duration

2 days
