

**HITACHI**

**ABB**

# NordLink

HVDC interconnection

The longest and most powerful HVDC VSC cable interconnection operating in the world

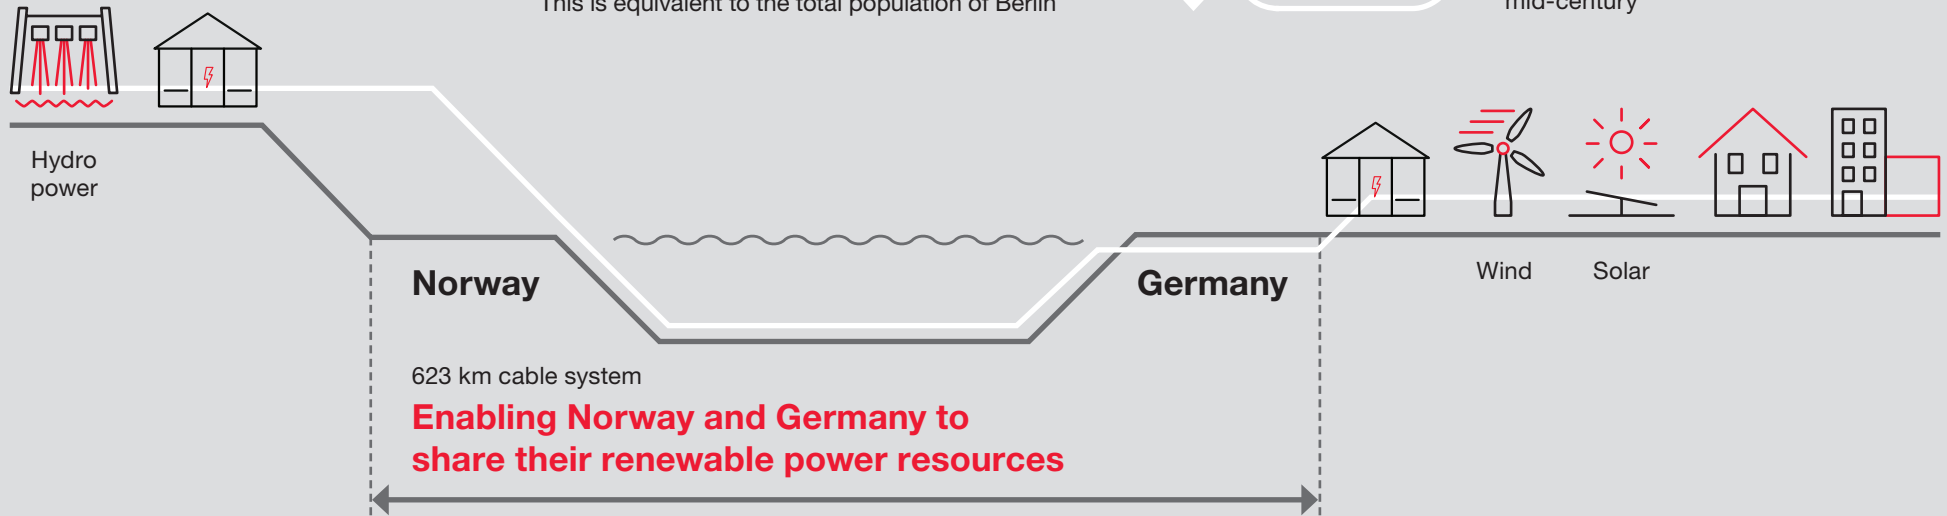

**1,400 MW/525 kV**

Enough electricity to meet the needs of **3.6 million German households**  
This is equivalent to the total population of Berlin

Supports 2050

**EU climate targets**

to be carbon-neutral by mid-century

## HITACHI ABB POWER GRIDS ENERGIZES NORDLINK AND EXPANDS ACCESS TO SUSTAINABLE ENERGY

By connecting wind and solar power from Germany and hydro power from Norway both countries can use their renewable resources more efficiently, supporting a sustainable energy future.
