

ABB NORTH AMERICA

# Lake Mary, Florida

## Facility Overview

**Location**  
655 Century Point,  
Lake Mary, FL  
32746

**Operational since**  
2000

**Number of employees**  
160

**Offering**  
Medium Voltage  
air-insulated switchgear

### What we do in Lake Mary

Lake Mary is home to ABB's U.S. air-insulated switchgear business where we design, engineer, assemble, and test. Air-insulated switchgear is a key feature of electricity substations, power generation, and industrial facilities, ensuring reliable electricity service by protecting, controlling, and isolating the electrical equipment.

### Who we serve

ABB air-insulated switchgear is located across the electric grid from power generation facilities to neighborhood substations and in electricity intensive industrial applications. Our switchgear is used by electric utilities, petrochemical plants, mining

operations, data centers, power plants, and commercial facilities.

### ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.

~ 65 manufacturing locations

> \$14b invested since 2010

24,000 ABB employees

6 Major R&D centers
