

PRODUCT HIGHLIGHTS

## BlueKote® LU® universal conduit bodies

Available in Form 7 and Form 8 for rigid conduit or IMC.

**T&B Fittings**

With T&B® Fittings BlueKote LU universal conduit bodies, you get excellent corrosion protection, reduced labor and inventory and lower installed cost.

### Key differentiating features

- Superior corrosion resistance — Three external and four internal protection layers give you peace of mind that your conduit body is protected.
- SKU reduction — The LU universal conduit body acts as LB, LL, LR, L and inspection C conduit bodies. Cut your inventory costs.
- Ease of installation — BlueKote® PTFE internal coating creates a slick surface to reduce drag for easy wire pulling.
- All Form 7 and Form 8 covers come with a gasket pre-installed, reducing part numbers and labor.
- With LU conduit bodies, you do not need to upsize your fitting to comply with 40% conduit fill. This saves you both labor and the expense of having to buy larger fittings and install reducing bushings.

#### Applicable industries

Chemical

Oil and gas

Utility industry

Commercial and institutional buildings

Power generation

Water and wastewater treatment

Metals and mining

Renewable energy

Wind power
