

Course description

G614e

PVSize 2.0 sizing tool, Internet course

Course type

Internet course

Course Duration

The course duration is approximately 10 minutes.

Course Goal

The goal of this course is to guide the students through PVSize tool installation requirements and steps and to advise how to use the PVSize 2.0 tool.

Student Profile

This course is intended for solar inverter sales and sales support persons as well as for PV system engineers.

Prerequisites

- E-learning course "Basics of Solar and photovoltaic systems and markets"
- E-learning course "Photovoltaic system key components"
- E-learning course "PV system sizing"
- E-learning course "PVS800 solar inverter fundamentals"
- E-learning course "PVS300 solar inverter fundamentals"
- An Internet connection. The recommended browser is Microsoft Internet Explorer.

Course Objectives

Upon completion of this course, students will be able to:

- Understand the purpose and capabilities of PVSize 2.0
- Install PVSize 2.0 sizing tool
- Use PVSize 2.0 sizing tool

Main Topics

- Overview and purpose of the program
- Installation steps of the program
- Sizing procedure steps with PVSize 2.0 tool

Low voltage drives training
