

F2C-ARH-T

- I** Dispositivo di riarmo automatico per F202 30 mA con autotest del differenziale
- GB** Automatic resetting unit for F202 30 mA with autotest
- D** Automatische Wiedereinschaltung fuer F202 30 mA mit Selbstpruefung
- F** Dispositif de réarmement automatique pour F202 30mA avec autotest
- E** Reconectora para F202 30mA con autotest

Alimentazione Supply Stromversorgung Alimentation Alimentación	230 V a.c. (-15% / +10%)
Numero tentativi richiuse automatiche Number of automatic reset attempts Anzahl der automatischen Rückstellungenversuche Nombre de tentatives de réarmement Número de intentos de reconexión	1
Tempo di reset del contatore numero richiuse automatiche Time of reset of the auto-reset meter Rückstellzeit des Zählers für automatische Rückstellungen Temps de réarmement du compteur du nombre de réarmements automatiques Tiempo de reset para el contador de reconexiones automáticas	12 sec
Potenza assorbita durante la manovra Power consumption during the operation Leistungsaufnahme während der Betätigung Consommation pendant la manœuvre Potencia absorbida durante la maniobra	(t<0,5s) 20VA max
Potenza assorbita a riposo Power consumption at rest Aufgenommene Ruheleistung Consommation au repos Potencia absorbida en reposo	0,4W max
Numero di manovre Number of operations Anzahl Betätigungen Número de manœuvres Número de maniobras	≤ 10.000
Temperatura di funzionamento Operating temperature Zulässige Umgebungstemperatur Température de fonctionnement Temperatura de funcionamiento	- 25 ... + 55 °C
Sezione cavi Cables cross-section Kabel-Querschnitt Section des câbles Sección de conductors	≤ 2,5 mm ²
Contatto di segnalazione dello stato di blocco (morsetti 1 – 2) Signaling contact to signal a locked state (terminals 1 – 2) Signalkontakt zur Signalisierung des Sperrzustandes (Klemmen 1 – 2) Contact de signalisation pour l'état de blocage (bornes 1 – 2) Contacto de señalización del estado de bloqueo (terminales 1 – 2)	1NA in scambio change-over contact Wechsler Kontakt contact inverseur contacto conmutado
Corrente nominale Current carrying capacity Strombelastbarkeit Courant nominal Corriente nominal	3A (250V a.c.) (carico ohmico ohmic load ohmsche Last charge ohmique carga óhmica)
