

Peter Burman

Project Manager, Mine Automation, Boliden Mines

As a young engineer Peter worked for Boliden 7 years before he joined Ericsson in 1995.

During his years in telecom he held positions such as Project Manager, Product Manager, R&D Manager and Quality Manager.

In 2012, he returned to Boliden as Project Manager in the Mine Automation Program. In addition, Peter is also Program Manager for Process Control.

He is also responsible for some research projects financed by Vinnova and the European Union and he coordinates Boliden's contacts with some Swedish universities and research organizations.

Peter holds a Master of Science and a M.B.A.
