

SACE Emax 2. Managing the power.

Light up the future with the new SACE Emax 2 for UL 1066. Not just a circuit breaker, but a true power manager that controls every electrical system, raising the efficiency. SACE Emax 2 for UL 1066 protects the system, manages loads and generators, measures and analyses energy quality. It is simply integrated into all projects - from standard systems to the most complex automated networks - all with the simplicity and reliability you would expect. Circuit breakers switch power. SACE Emax 2 manages it. www.abb.com
