Course description

G061e
Drives PC tools overview, Internet course

Course type
Internet course

Course Duration
The course duration is approximately 10 minutes.

Course Goal
The goal of this course is to give an overview of PC tools for drives, and the benefits for different target groups. After completing the course, students understand which drive PC tool to use for a specific purpose and drive.

Student Profile
This course is intended for ABB sales and sales support, authorized value providers working with several ABB drive families. Suitable also for end customers.

Prerequisites
- An Internet connection. The recommended browser is Microsoft Internet Explorer.

Notes
If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course, to be able to utilize the drive to its full potential.

Course Objectives
Upon completion of this course, students will be able to:
- List which drive PC tools are used with different drive families
- Describe for what purposes the different drive PC tools exist
- Know where to get more information about drive PC tools

Main Topics
- Selecting the right tool for the right purpose
