Measurement Products
AZTEC & Navigator 600 Technician Training – Z452

The skills of operations and maintenance personnel play a key role in equipment performance as well as maximizing return on investment.

ABB Measurement Products' training facilities at the Stonehouse site deliver a programme of Instrumentation and Analyser training courses, specifically designed to meet client's needs.

AZTEC & Navigator 600 Technician Training

The course is designed for engineers and technicians who are responsible for the day to day maintenance of ABB AZTEC and Navigator 600 water analysers.

Students will gain an understanding of the analyser measurement principles, analyser hardware and software operation.

On completion of the training, students will have the ability to interrogate the instruments through the HMI interface, to read and interpret alarm / status messages and generally maintain the analysers on a day to day basis.

Agenda Day 1: 09.00 – 16.00	
Registration & coffee	09.00 – 09.30
Introduction	Welcome
