

ABB Ability™ Electrical Distribution Control System Secures your plant data.

abb.com/lowvoltage

Thanks to ABB, Microsoft and an expert partner on IT security,
ABB Ability™ EDCS can guarantee state-of-the-art cybersecurity as it is:

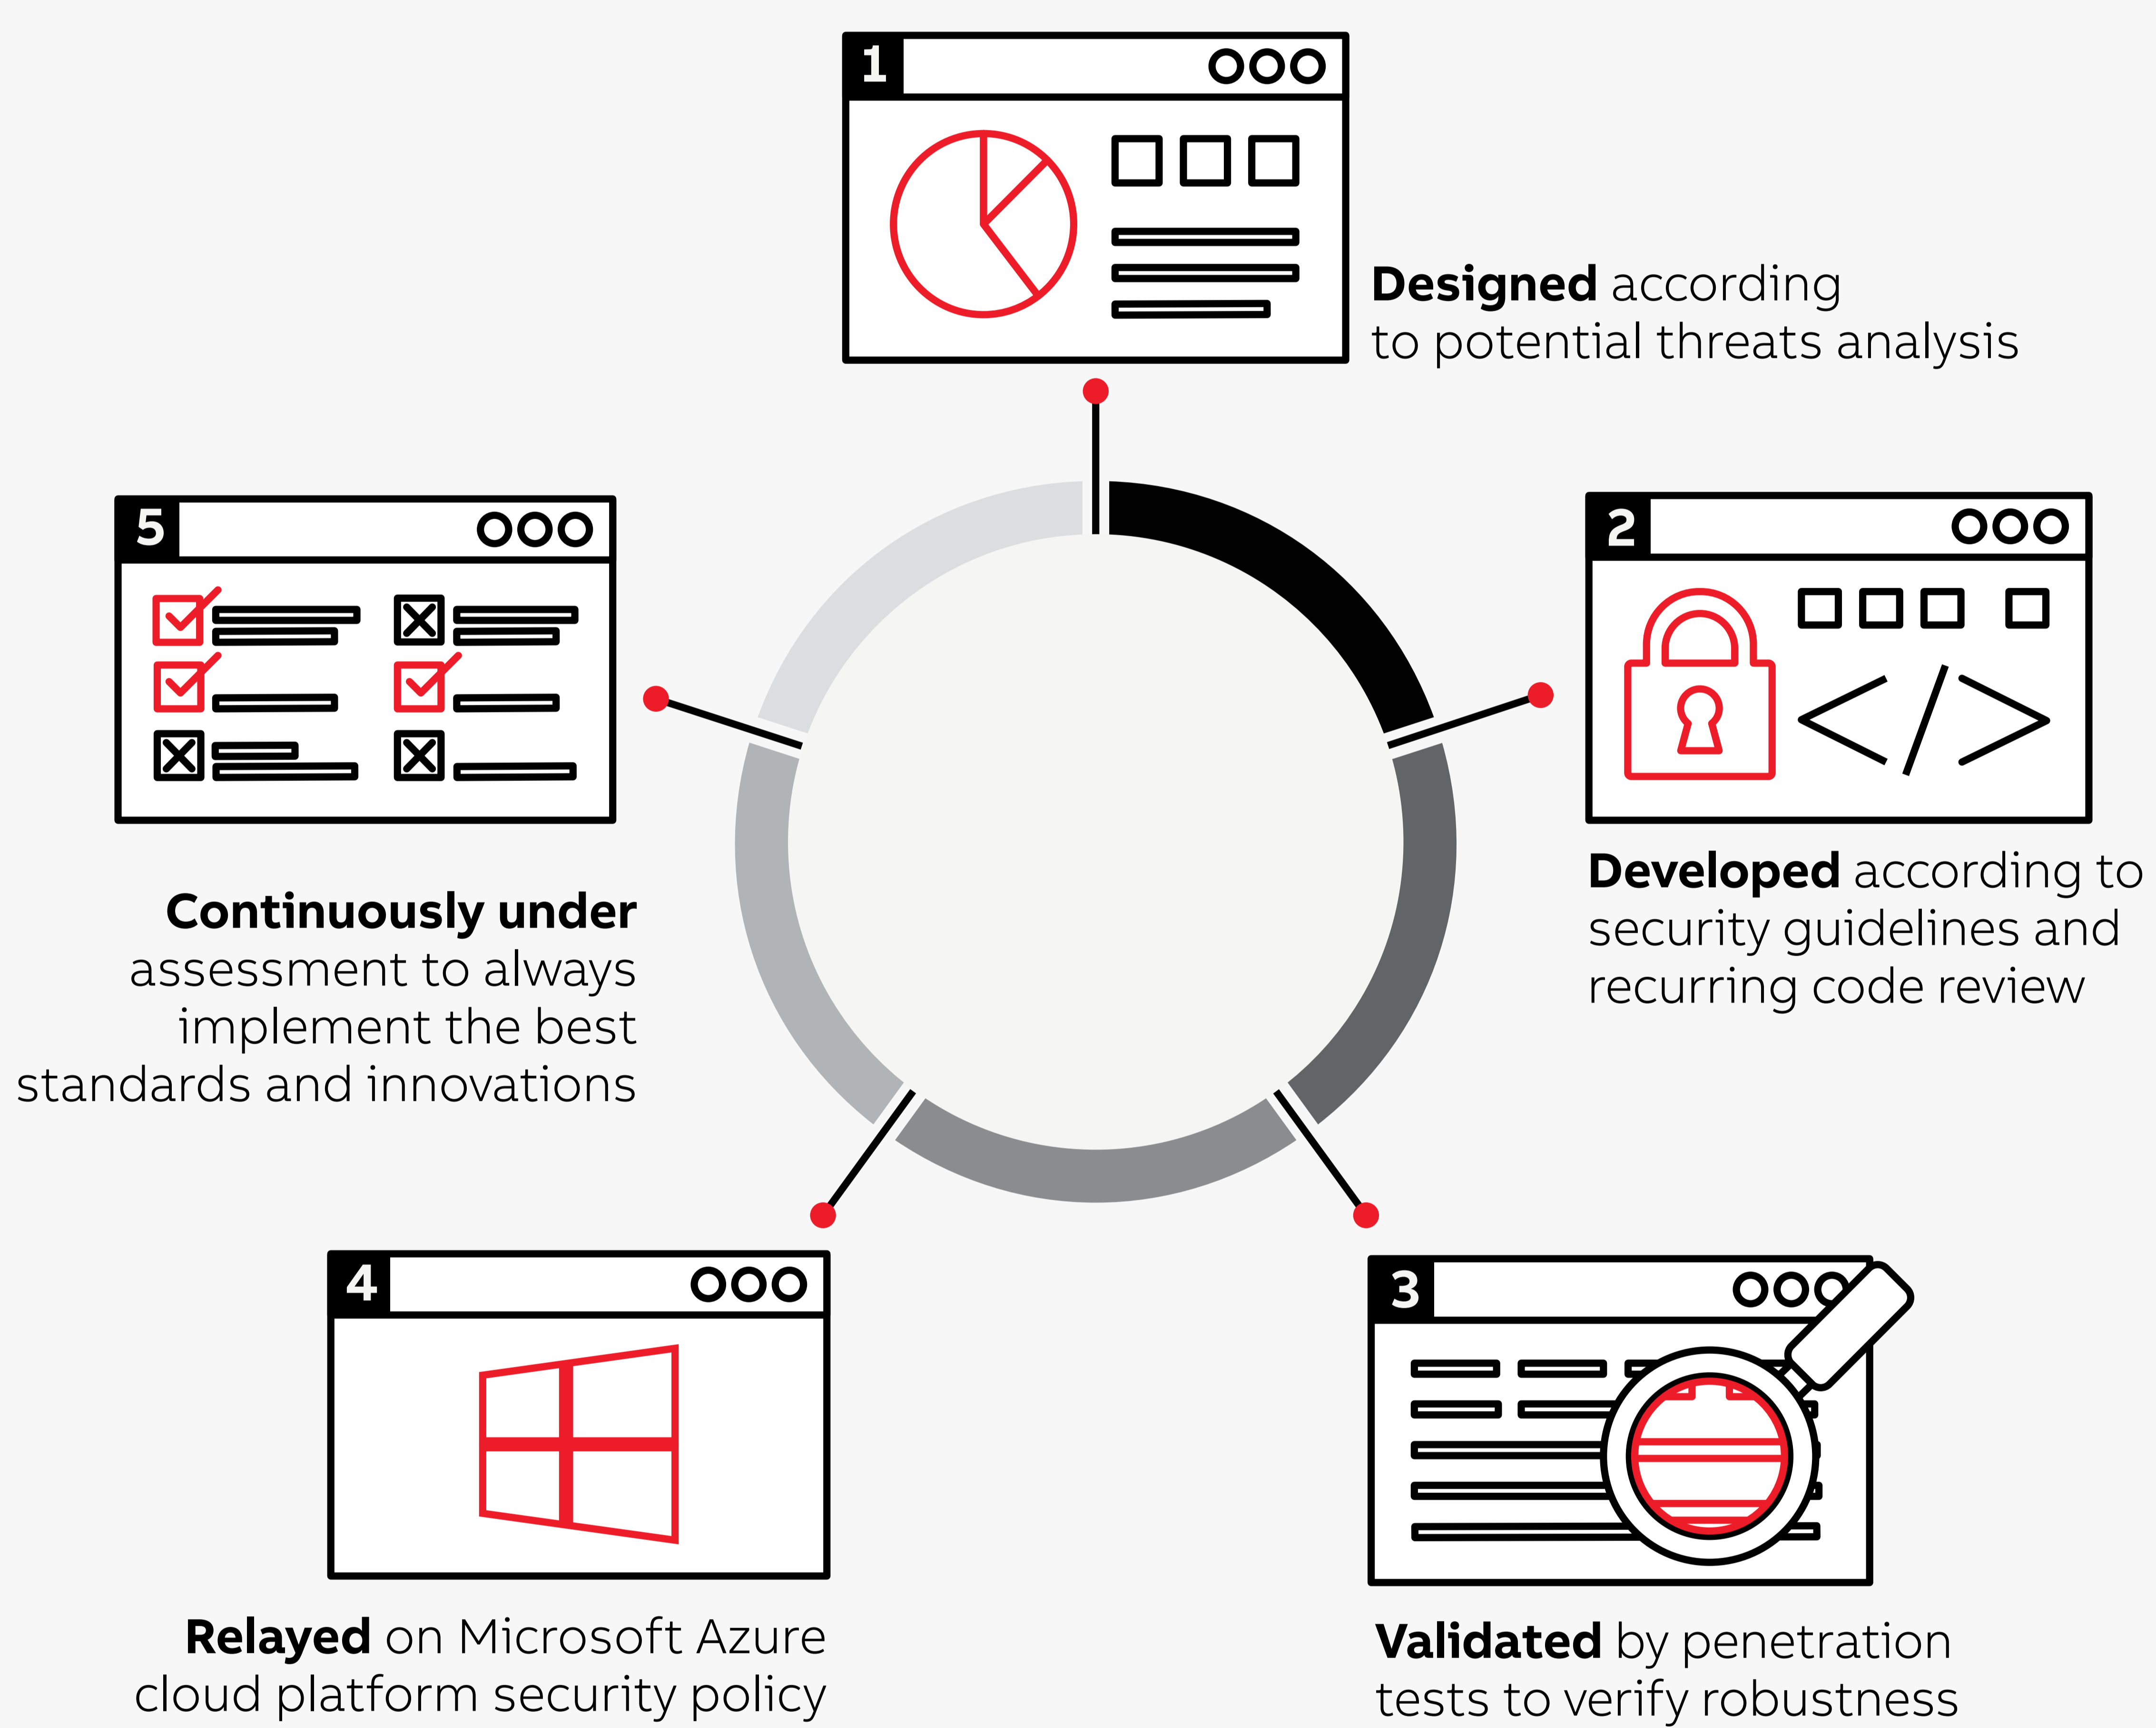

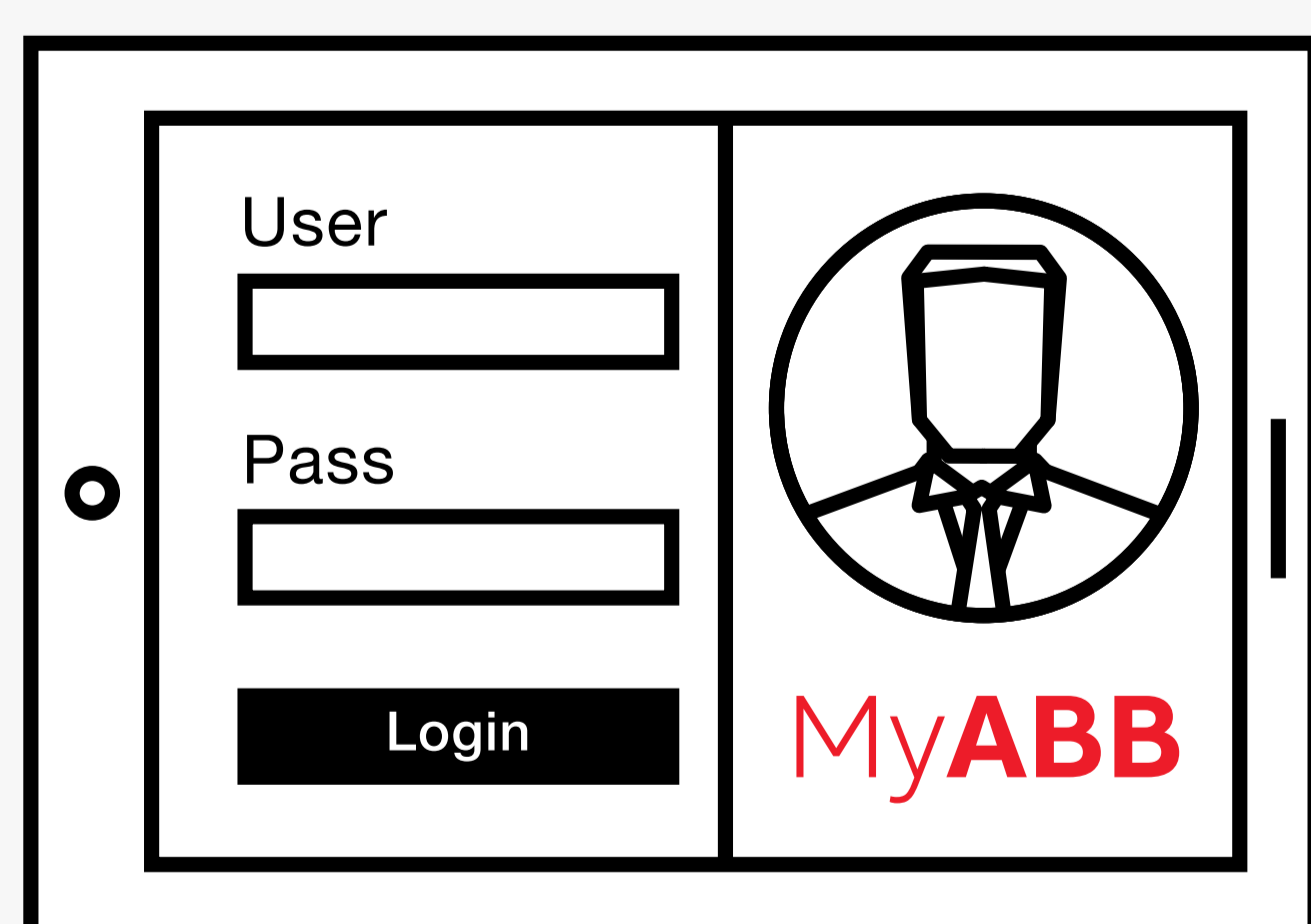

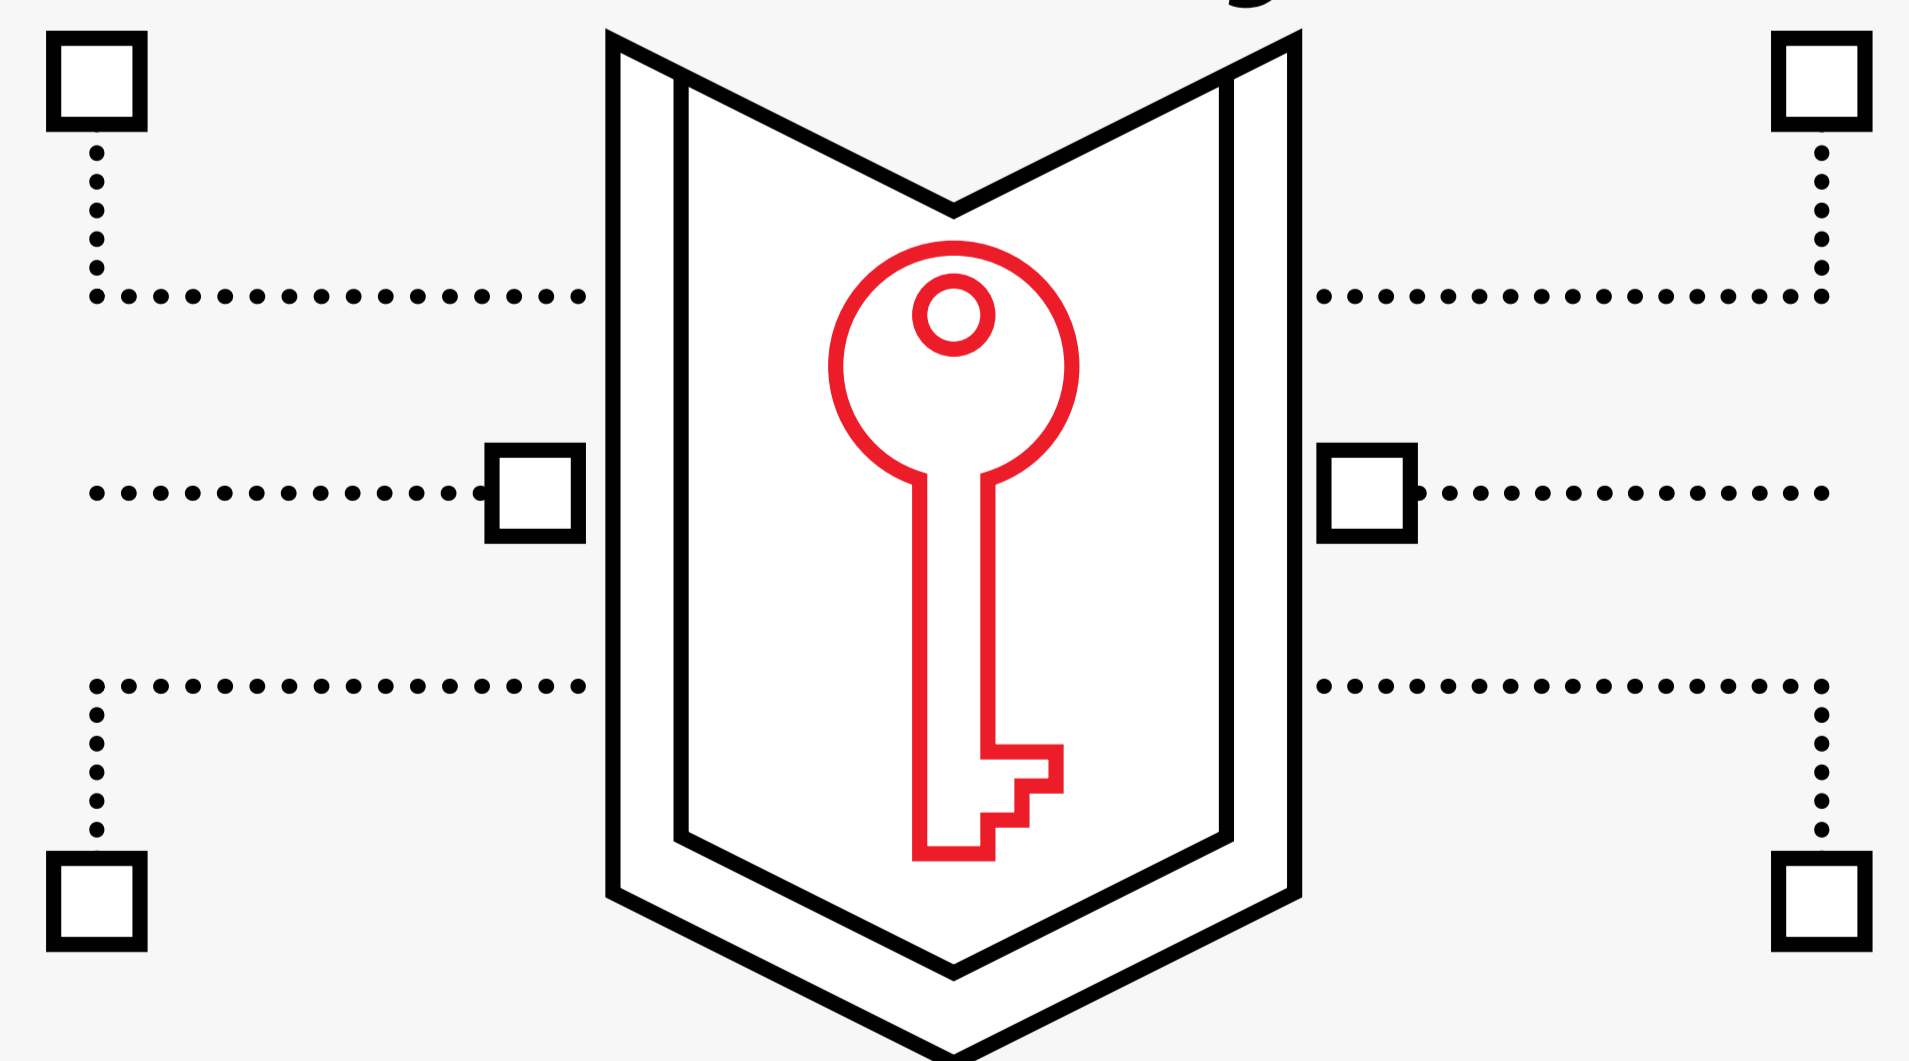

ABB Ability™ EDCS main pillars for cybersecurity

Identity

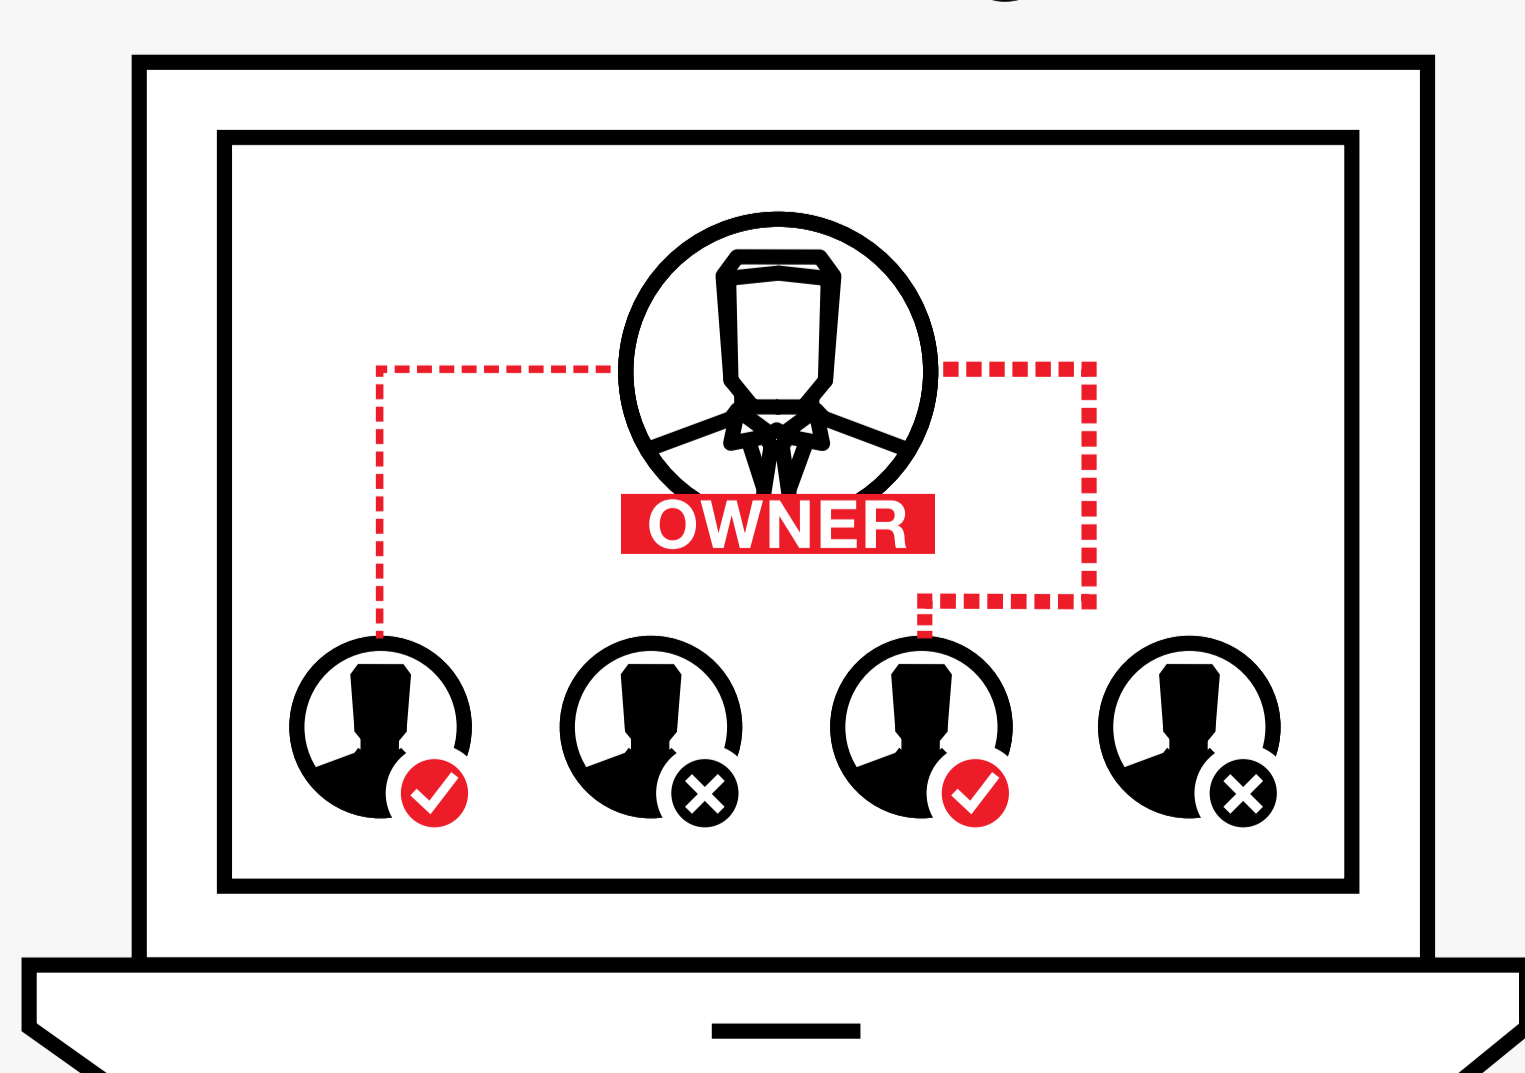

Authentication via unique **MyABB account**

Security

Encrypted communication channel, using the same protocol as banking and other important applications

Privacy

Only the owner has initial access to data and can profile other users' role

Digital Signature

Each connected device is **uniquely identified**
