

# GFI Disconnect Spa Panels

By Midwest Electric Company

Midwest Electric GFI disconnects offer a convenient, low-cost way to satisfy National Electrical Code (NEC) requirements for ground fault disconnects for spas, hot tubs, water heaters and swimming pools. The NEMA 3R design ensures safe, weather-tight installation for residential, light commercial and even some industrial applications.

## FEATURES AND BENEFITS

- Extra circuit breaker spaces allow for future expansion
- 125A rating
- Overhead hub opening

### Rugged Durability

- NEMA 3R weatherproof enclosures
- G90 galvanized steel construction for superior corrosion protection
- Durable polyester powder coat finish resists chipping and fading

### User Safety

- Includes both overcurrent and ground fault protection
- Lockable enclosure

### Installation Ease

- Fully assembled unit saves costly installation time
- All terminals accept copper or aluminum wire for installation flexibility

## TECHNICAL DATA
