## Trip Unit Toolkit Software

**Note:** Before installing a new version of Trip Unit Toolkit, please make sure to uninstall any prior versions from your computer:

- For Trip Unit Toolkit version V3.0 or later, go to **Control Panel -> Programs and Features**, look for Trip Unit Toolkit, right click and select "**Uninstall**".

- For previous version of Trip Unit Toolkit (formerly known as **EntelliGuard Manager TK**), go to **Control Panel -> Programs and Features**, look for EntelliGuard Manager TK Standard, rightclick and select "**Uninstall**".

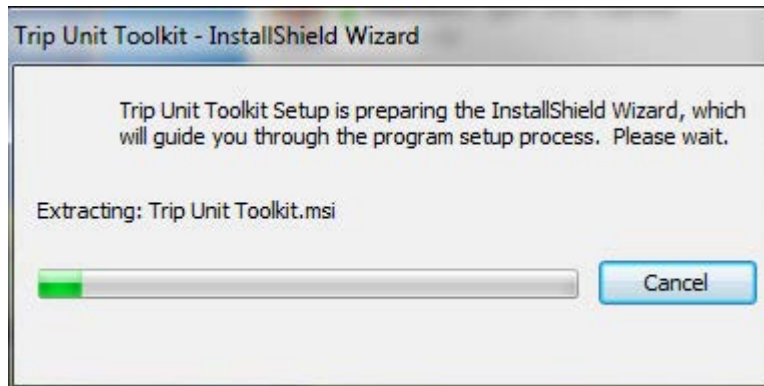

After uninstallation is done, go to <windows Drive> (where windows installed, typically C:\) and delete the folder named **GE Industrial Solutions**.

These steps will guide in installing Trip Unit Toolkit software

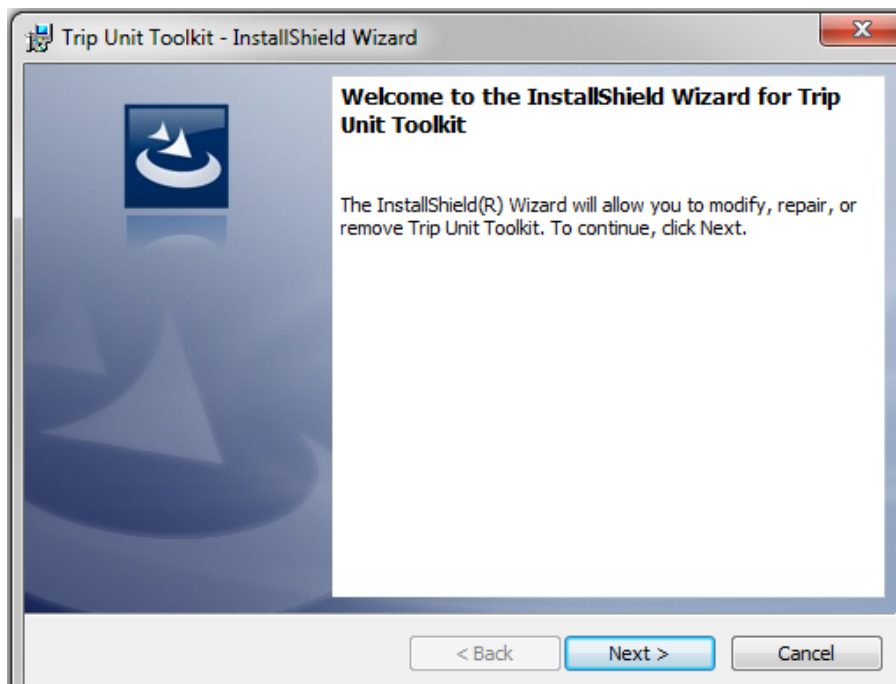

- 1) Right click on Trip Unit Toolkit software setup file (installer) – select option as **Run as administrator**
- 2) Trip Unit Toolkit – Install Wizard screen is shown. Choose the language for installation from the drop down and click **OK**.

Extracting Trip Unit Toolkit.msi package progress is shown

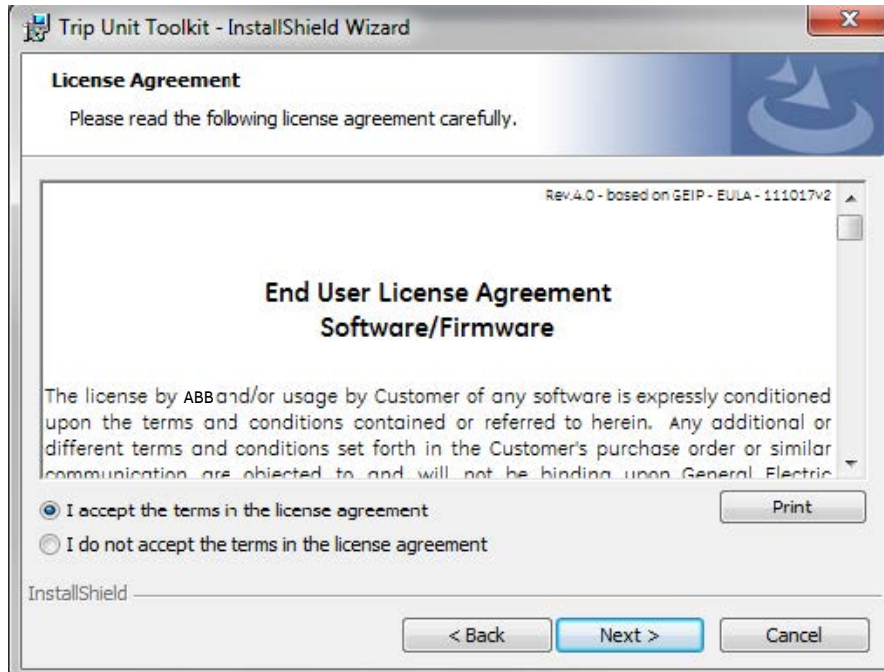

3) Trip Unit Toolkit InstallShield Wizard screen is shown

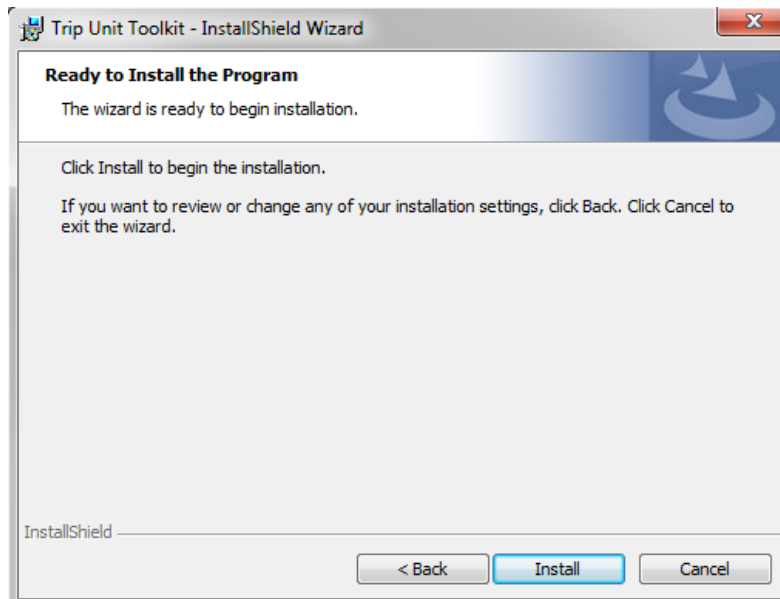

Click **Next** button

4) Trip Unit Toolkit - InstallShield Wizard screen of License Agreement is shown Read through the license terms and select radio button on **accept the terms in the license agreement.**

Click **Next** button on License agreement screen

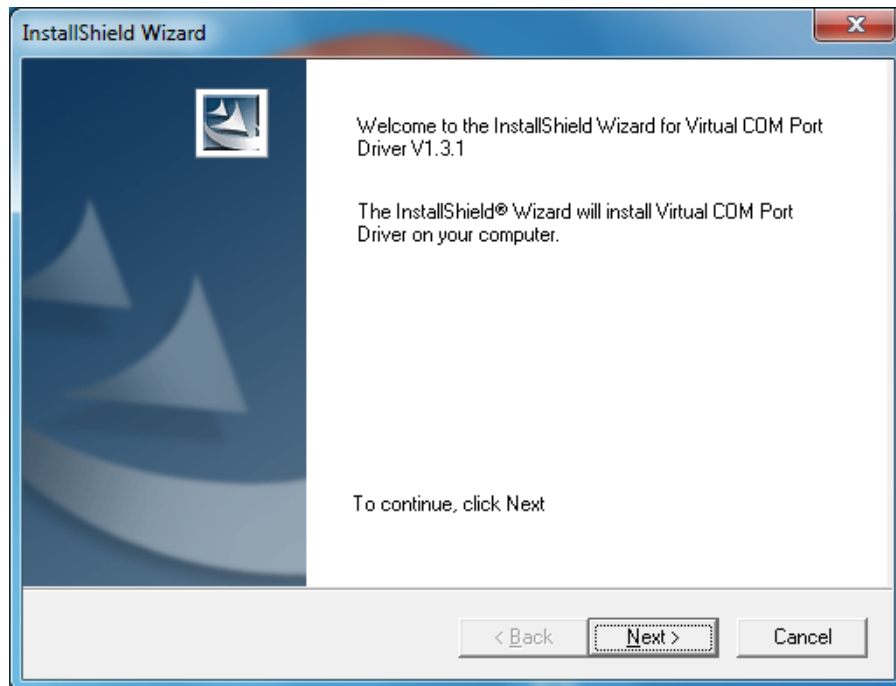

5) Now on Trip Unit Toolkit - InstallShield Wizard Screen **Ready to Install the program** is shown

Click **Install** button on Ready to Install the Program screen

6) During installation, the installer tries to install the **Virtual Com Port Driver**

7) Click **Next** button on InstallShield wizard screen for Virtual ComPort Driver V13.1 Installation

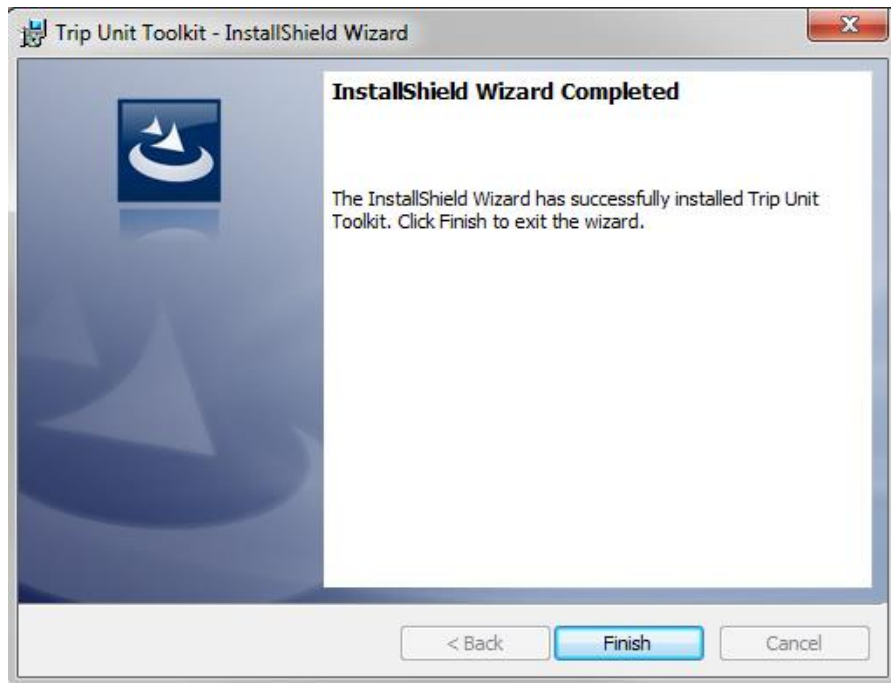

8) Click **Next** button on Device Driver Installation wizard screen

9) Now Click **Finish** button on Device Driver Installation wizard screen

If the Device driver is already installed, **cancel the Device Driver Installation wizard** at step 6, and click **Finish** to close the Device driver installation wizard.

10) Wait for few seconds for the installer to complete the installation of Trip Unit Toolkit.

11) Click **Finish** button on Trip Unit Toolkit screen to finish the installation of the Trip Unit Toolkit software.

These instructions do not cover all details or variations in equipment nor do they provide for every possible contingency that may be met in connection with installation, operation, or maintenance. Should further information be desired or should particular problems arise that are not covered sufficiently for the purchaser's purposes, the matter should be referred to the ABB Inc.
