Auburn Hills, Michigan

Facility Overview

Location
1250 Brown Road,
Auburn Hills, MI
48326

Offering
Robotics

Number of employees
530

Operational since
1993

What we do in Auburn Hills

Design, engineer, and manufacture innovative and customized industrial robotic systems. Auburn Hills is ABB's North American robotics headquarters and the first major industrial robotics factory in North America. We also conduct robotics research and development, service, and software development.

Who we serve

ABB's robotics, machine automation, and systems are used by a variety of manufacturers and industrial facilities across North America. Our robotic offerings help automakers, food packagers, display and solar PV factories, distribution centers, healthcare and pharmaceuticals, and others competitively manufacture here in the U.S. by increasing productivity, improving worker safety, and lowering cost.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
